

Amendments to the Drawings

Formal drawings are being submitted with this Amendment and Response. FIGS. 21 and 22 have been amended as described below. Drawings with Markings to Show Changes, indicating the proposed amendments to FIGS. 21 and 22, are also enclosed herewith.

The changes to FIGS. 21 and 22 relate to the identification of those features of the drawings referred to in the claims. Specifically, different edges of the walls defining the cable channel of the riser and openings for mounting cable clips along one edge of the riser as referred to in the Amendments to the Specification below, are now indicated with reference numbers.

No new matter is introduced through these Proposed Drawing Amendments.
